## THE SPRINGS HOMEOWNERS' ASSOCIATION, INC.

Dear Neighbors,

I am sure you are aware that we have lost nearly thirty of our lovely Ash trees to the invasive Ash Borer Beetle. Be assured that we are working with our landscape architect on a replacement plan. New trees and shrubs will be planted in the spring so that they have plenty of sunshine to help them establish securely.

We may not replace trees in exactly the same locations. If you have concerns about where, or if, a new tree will be planted near your unit we do want your input. Different species will be available to provide privacy, shade or color. A complete list of the choices will be available in the coming weeks.

Please let Marie in the office know if you will want to have input about what will be planted near your unit.

Thank you for your patience! Your Board of Directors is working to maintain the natural beauty and value of our community. All good things take time and planning to assure the best outcome.

Very best regards,

Gail Stern
